New York. November 16th.—Breeders of horses in the East and West, as well as large owners of finely-bred thoroughbred runners, manifest much interest in the proposed movement to break up pool-selling, except on the track where the racing really occurs. It is proposed to do this by making the offense a felony, punishable with both fine and imprisonment in the penitentiary for any persons to sell pools on out-of-town races. The first move will be made in Kentucky, where the Louisville, Latonia and Lexington Clubs are in united action, and with the support of the breeders propose to present to the Legislature, in January next, a bill comprehending in its provisions the points indicated. The past season has been noteworthy for numerous charges of dishonesty and jockeying, and Western owners claim that their trainers and riders have been approached by bookmakers, and offered large sums to throw races.

JUDGE VINCENT'S APPEAL Whoever read the lengthy appeal of Judge Vincent, which we yesterday published in full, must admit that he makes out a prima facie case—one that the Presi dent cannot refuse to take up. Tea Plantation in Successful Operation in Placer County.

[San Francisco Bulletin, November 16th.] W. H. Mills, Land Agent of the Central Pacific Railroad, during a recent visit to Auburn, found a small tea plantation which was set out six or seven years ago y Mr. Gould, and which has long passed he experimental stage. There are about ty tea plants, which for six or seven years have been producing tea of as good quality any to be found in the market. The amily have not purchased tea for a great many years, using only that which is obtained from their own plants. It is believed that this experiment of Mr. Gould has denonstrated the feasibility of raising tea in the foothills. Mr. Mills has secured some of the tea seed, and will experiment with t on his ranch in Napa county. Mr. Gould has also, near Auburn, a very large number of thrifty olive trees, which are all ir bearing, being loaded with ripe fruit. There re many other olive orchards in the vicinty, all producing fine olives. The region ranges to be found. SCROFULA OF LUNGS

I am now 49 years old, and have suffered for the last fifteen years with a lung trouble. I have spent thousands of dollars to arrest the march of this disease; but temporary relief was all that I obtained. I was unfit for any manual la-bor for several years. A friend strongly recom-mended the use of Swift's Specific (S. S. S.), elaiming that he himself had been greatly bene-fited by its use in some lung troubles. I resulved

claiming that he himself had been greatly benefited by its use in some lung troubles. I resolved to try it. The results are remarkable. My cough has left me, my strength has returned and I weigh sixty pounds more than I ever did in my life. It has been three years since I stopped the use of the medicine, but I have had no return of the disease, and there are no pains or weakness felt in my lungs I do the hardest kind of mechanical work, and feel as well as I ever felt since I was a bcy. These, I know, are wonderful statements to make, but I am honest when I say that I owe my existence and health to-day to S. S. S. I would be recreant to the duty I owe to humanity if I failed to bear this cheerful testimony to the merits of this wonderful medicine.

ADDERS TO THE PUBLIC.

Inasmuch as many, acting on misinformation or actuated by malevolence, have taken it in hand to assiduously misrepresent the facts concerning the expulsion of the Chinese from the city of Tacoma on the 3d day of November, 1885, it has been deemed advisable to place the facts as they exist before a candid public. The right or wrong of that expulsion must be left to the individual judgment of the masses. There was no insurrection; no mob seized the reins of government, or attempted to control the administration of the law. There was no violence offered to either the person or property of a single Chinaman. The people did not force open doors or seize upon or destroy the effects of the Chinamen. There was not a club, ax, knife, gun, pistol or weapon seen, or known to have been seen, in the possession of any of the written of the chinamen. Their goods were not thrown into the streets. They were not driven out to an open prairie, or left without shelter. There was not a Chinaman that died, or that was struck, and not a single drop of Chinese blood was shed.
